LIME, AS WELL AS ABSINTHE  
WHICH IS GUARANTEED TO  
PLEASE

THE OILS IN THE SOAP ARE A  
COMBINATION GUARANTEED  
TO LEAVE YOUR SKIN FEELING  
SMOOTH, SOFT AND CLEAN

OUR SOAP COMES IN A  
VARIETY OF SIZES AND PRICES  
TO PROVIDE EVERY USER WITH  
THE EXACT AMOUNT OF SOAP  
THEY NEED

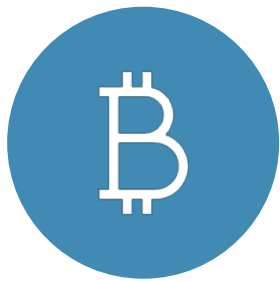

# How Our Soap Helps Others

Our soap uses oils that contribute to the economy of the countries responsible for the exportation of the oils

Countries like Spain rely on olive oil for billions in GDP

Countries like Guatemala and Indonesia rely on coconut oil for a large amount of their GDP

Our soap employs a plastic free packaging and we are dedicated to reducing unnecessary waste in commercial products

## Environmental Impacts of the Soap and Packaging

- All the ingredients used in our soap are natural and beneficial for users while also ensuring a low impact on the environment
- The packaging minimizes waste materials and does not rely on plastic unlike some commercial soaps, thereby lowering the amount of possible waste and the negative environmental effects

# Our Soap vs Commercial Soap

- Our soap is handmade, with all natural ingredients that have been measured and calculated to yield a high quality soap
- Our soap is made in small batches to ensure accuracy of process and results in a uniform product
- While some mass market soaps incorporate preservatives to lengthen the shelf life of products, our soap contains only the essential ingredients and are intended to be used while they are freshest

# WHY YOU SHOULD CHOOSE OUR SOAP

- Our soap is available in a variety of sizes ranging from 50g to 100g
- The production of our soap helps other countries around the world
- Our soap is less environmentally impactful than competing brands
- Our soap is freshly made without the use of preservatives
